OKINAWA

Greetings, to all those who view this certificate know ye that W9VT did work KR6GF on 14 MC. using SSB type of emission. His signals were R 5 S 9 T

He was futher fortunate to accomplish the above since this station was using the following equipment

RCVR 755A

XMTR 32S1 30S1

ANT TM30

failure to QSL will cause the enternal wrath of the guiding gods of electrons and R.F. TNX CONTACT 4 PTS
